Export Report to Microsoft® Excel, Adobe® PDF, or CSV

Document #:	3247	Product:	CenterPoint®

If you'd like to share your CenterPoint reports with an accountant, the banker, a landlord, shareholders, board of directors, or a particular customer or vendor, the data can be exported to an Excel or PDF document. The export creates a file. Opening the PDF file displays on another machine identical to the report preview displayed within CenterPoint. The Excel file displays in an Excel spreadsheet format with the same column headings and data viewed within the CenterPoint report. The exported file can be attached to an email to your third party user or saved to an external drive and given to your third party user.

There are multiple ways a report can be exported from CenterPoint:
